PROFESSIONAL SUMMARY

Motivated and adaptable B.Sc. Artificial Intelligence and Machine Learning student with a strong foundation in programming, SQL, problem-solving, and analytical thinking. Experienced in academic projects and internship-based learning, with practical exposure to development and database tools. Possess strong communication, teamwork, time management, and adaptability skills. A quick learner who can work effectively in both technical and non-technical environments, with a strong interest in learning new skills and contributing to organizational goals.

EDUCATION

Sri Krishna Arts and Science College, Coimbatore, Indi Bachelor's in Artificial Intelligence and Machine Learning CGPA: 8.0%	June 2024 - Current
Sri Ambal Public School, Coimbatore, India Secondary School Examination Percentage - 61% Senior School Certificate Percentage - 67%	June 2021 - April 2024

EXPERIENCE

Full Stack Developer Intern, Live Stream Technologies, Coimbatore	April 2026 – May 2026
- Built a full-stack web application to digitize campus placement management with role-based access for Admin and Student users, featuring secure SHA-256 password hashing and session-based authentication - Developed REST API endpoints using Flask and connected them to a dynamic JavaScript frontend using fetch() API for real-time data rendering without page reloads, including automated CGPA-based eligibility matching using SQL JOIN queries - Deployed the application live on Railway cloud platform with a cloud MySQL database, configured environment variables for secure credential management, and used Gunicorn as the production WSGI server	

PROJECTS

Thyroid Ultrasound Classification using KNN with Image Validation Python Scikit-learn Tkinter
- Developed a desktop application to classify thyroid ultrasound images as benign or malignant using the K-Nearest Neighbors (KNN) algorithm. - Implemented a smart image validation system to ensure only valid ultrasound images are processed, improving reliability. - Built an intuitive Tkinter-based GUI enabling non-technical users to upload images and view results with ease.

TECHNICAL SKILLS

Programming : Python, HTML/CSS, JavaScript, SQL.

Web tool & tech : MySQL, Git, GitHub, MS Excel skills, Figma and Selenium, Pycharm.

INTERESTS, ACHIEVEMENTS AND CERTIFICATION

Coding Platforms: Solved DSA problems at Leetcode (https://leetcode.com/u/dhivakar_24/).

Certification: Learn Python (Coursera), Core Jv

Extra Activities: Successfully completed two exams of the Dakshina Bharat Hindi Prachar Sabha
(Prathamic, Madhyama)
